# Choosing a coffin

Choose the perfect coffin to  
reflect a special person

Deciding what coffin you want may feel daunting.  
But we'll be here to help you make the choice.  
We have a wide range of coffins, and we've grouped  
them together in this brochure by style; modern,  
traditional, sustainable and personalised. So you  
can easily find the right one for the person who's  
died, and you.

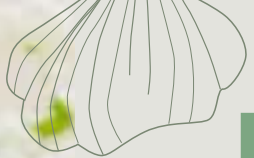

Whether you want a bespoke colourful coffin with  
the image of their favourite football team on, or a  
classic mahogany casket, we can arrange it for you.

You can leave special items in the coffin to go to  
be buried or cremated with them, if you want to.  
Some people like to leave jewellery, letters, and  
photos in with their loved one.

Whatever you want to do, we'll be here.

# Modern coffins

Our modern coffins are perfect for those who want lighter woods and simpler designs.

### Natural Wood

A more sustainable option, made using soft wood in Pine or Tulip with wooden handles. Includes a calico frill.

**£520**

### Pandanus

Our pandanus coffin is made from the leaves of the plant which grows rapidly in Southeast Asia. The leaves are dried, spun into yarn and are weaved onto a rattan structure. Includes a biodegradable cotton lining.

**£770**

### Willow

Our willow coffin is made using traditional weaving methods in a cottage industry, where people work in their own homes. Willow regrows every year, making it more sustainable than hard wood which can take thirty to sixty years. Includes a biodegradable cotton liner.

**£670**

### Bamboo

Our bamboo coffin is one of the most environmentally sustainable choices, as bamboo is the fastest growing plant on Earth. It's completely biodegradable with no nails, glue or screws used. Includes a biodegradable cotton lining.

**£670**

### Banana

Our banana leaf coffin is made from a combination of banana leaf cord and rattan. Banana leaves are a bi-product of banana growing, making it a sustainable material. Includes a biodegradable cotton lining.

**£670**

### Rattan

Made from blonde rattan, which is the quickest growing tropical wood, it's 100% biodegradable. Includes a cotton lining.
