Memories that never fade

While you'll never forget them, we've some lovely ways to remember that special person.

When someone dies and we carry on with our lives, we might worry that we'll lose our memories of them. Our range of modern and traditional keepsakes helps to keep them close, in a way that's right for you.

Whether you're set on a centrepiece that's a talking point in a room or garden, or a subtle, beautiful piece that offers an occasional private reminder, you'll be inspired by what we can offer.

Ashes into glass

When someone you love becomes a memory... that memory becomes a treasure... *Ashes into Glass*® is the leading creator of ashes jewellery for our clients in the UK and worldwide. Fine jewellery for you to connect with your loved one by wearing it or just holding it in your hand.

Using ashes to make the glass stones, each is unique to you.

Paperweight

Expert craftsmen preserve your loved one's ashes within paperweights using our patented process, delicately encompassing them with your personal choice of coloured-glass crystal. As a final ode to the memory of your loved one, your paperweight will be delicately engraved underneath with your own personal message, so your tribute will be preserved forever.

Garden

If their favourite place was the garden,
we've got a range of ways you can keep
their memory alive outside.

Return to Nature Soil

Whilst lots of us like to scatter or bury ashes in remembrance, it can be harmful to the environment. Ashes alter the PH and can damage the soil, stopping plants from growing as well.

Return to Nature soil is mixed with the ashes, neutralising them and making the soil nutrient rich. You can then plant a memorial tree, scatter them in nature or even add to a flower bed without causing any damage.

Our team will mix the soil and ashes together when you collect them, once we've done it, they can't be separated again. If you want to scatter, you'll need to wait three months for the mix to work.
